### **DETAILED ACTION**

1. This communication is in response to Applicant's response filed on 06/21/2007.
  
2. Claims 1-22 are currently pending.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 17-19 and 21 are rejected under 35 U.S.C. 102 (b) as being anticipated by Scott Robert et al (U.S. Pat. No. 5,311,596).

As per claims 17-19 and 21 Scott discloses a re-authentication procedure between the modems of a public switched telephone network (or telecommunication network) data connection, which is between a computer facility and a user, the method comprising of: Receiving a set of challenges from a telecommunications networks, choosing one challenge from the set of challenges, determining a response and a key based on the chosen challenge, determining an authenticator based on the key corresponding to the chosen challenge, and transmitting said authenticator and a data unit to the telecommunications network, said data unit relating to the manner in which the

Art Unit: 3621

authenticator is formed, and notifying the telecommunications network of the chosen challenge (see., abstract, col 1-col 8).

5. (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 17-19 and 21 are rejected under 35 U.S.C. 102 (e) as being anticipated by Fox et al (US PG Pub 20020069174).

As per claims 17-19 and 21 Fox discloses a method for facilitating electronic commerce transactions between trading partners on an unsecure network such as local area network or wide area, the method comprising of:

Receiving a set of challenges from a telecommunications networks (or local or wide area network), choosing one challenge from the set of challenges, determining a response and a key based on the chosen challenge, determining an authenticator based on the key corresponding to the chosen challenge, and transmitting said authenticator and a data unit to the telecommunications network, said data unit relating to the manner in which the authenticator is formed, and notifying the telecommunications network of the chosen challenge (see., abstract, page 1-page 8).

***Allowable Subject Matter***

7. Claims 1-16, 20 and 21 are allowed over the prior art of record.
